

# AHMED BAJABER

Senior PhD Machine Learning Engineer | AI Innovation | Optimization

+1-(234)-555-1234 @ Email linkedin.com Houston, Texas Extra Field

## SUMMARY

Passionate Machine Learning Engineer with 10 years of experience, specializing in AI and optimization with a proven track record of increasing efficiency by 35%. Skilled in Python, TensorFlow, Pytorch, BERT transformers and data analytics, driving innovative solutions that align with business objectives.

## EXPERIENCE

### Senior Machine Learning Engineer

Google

02/2020 - Present Austin, Texas

- Led a team to develop an AI-driven analytics platform that increased data processing efficiency by 35%, reducing time to insight significantly.
- Implemented state-of-the-art machine learning models in Python and TensorFlow, achieving a 20% enhancement in predictive accuracy across multiple data sets.
- Optimized model training processes resulting in a 40% reduction in computation costs without compromising performance.
- Crafted advanced deep learning algorithms improving the object detection rate by 25% in real-time applications.
- Pioneered a cross-department AI initiative to integrate machine learning with business strategies, resulting in improved decision-making frameworks.
- Collaborated in designing automated reporting systems that enhanced data visualization and user engagement by 30%.

### Machine Learning Engineer

IBM

06/2015 - 01/2020 Remote

- Developed scalable machine learning models for large datasets, increasing system prediction speed by 50% with innovative approaches.
- Engineered robust data preprocessing pipelines that minimized data anomalies by 15%, leading to cleaner training sets and improved model reliability.
- Spearheaded a project on natural language processing, enhancing conversational AI systems by 40% in understanding contextual nuances.
- Implemented scalable cloud-based solutions using AWS, facilitating a 30% increase in team productivity and resource management efficiency.
- Devised machine learning strategies in collaboration with stakeholders, aligning technical innovations with evolving market demands for better outcomes.

## KEY ACHIEVEMENTS

### AI-Driven Analytics Platform

Developed an analytics platform at Google, increasing data processing efficiency by 35%, improving decision-making speed.

### Predictive Maintenance Model

Designed maintenance model at Microsoft leading to a 15% reduction in downtime across varied industrial applications.

### NLP System Enhancement

Enhanced IBM's conversational AI systems to understand context better, boosting NLP performance by 40%.

### Cross-Department AI Initiative

Led AI integration initiative aligning technical strategies with business objectives, increasing strategic decision-making efficiency.

## SKILLS

Python, TensorFlow, Data Analytics, Machine Learning, Deep Learning, Natural Language Processing, AWS, Big Data, Cloud Computing, Algorithm Design, Predictive Modeling, Data Visualization

## TRAINING / COURSES

### Advanced Machine Learning Specialization

Specialization by Coursera, providing in-depth knowledge on state-of-the-art machine learning techniques and applications.

# EXPERIENCE

## Data Scientist

### Microsoft

07/2013 - 05/2015 Redmond, Washington

- Contributed to the development of adaptive algorithms, enhancing data analytics platforms and boosting market competitiveness by 10%.
- Designed and validated a predictive maintenance model resulting in a 15% decrease in operational downtimes across various domains.
- Collaborated closely with engineering teams to refine data-driven strategies, advancing both product development and customer engagement avenues.
- Led workshops on big data insights and machine learning applications, fostering an increased understanding and adoption of advanced analytics.

# EDUCATION

## PhD in Computer Science

### Rice University

01/2010 - 01/2013 Houston, Texas

## Master of Science in Artificial Intelligence

### Stanford University

01/2008 - 01/2010 Stanford, California

## Bachelor of Science in Computer Science

### University of KU at Kenya

01/2004 - 01/2008 Nairobi, Kenya

# LANGUAGES

### English

Native

### Spanish

Proficient
